EXAMINER'S AMENDMENT

- 1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on June 27, 2005, William D. Noonan requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 02-4550 the appropriate fee for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 2. The application has been amended as follows:

IN THE CLAIMS

- 3. In the claim 20, line 5, delete "thereof,_comprising:", insert therefor thereof, comprising:--.
- 4. In the claim 20, line 7, after "the first microorganism;", insert wherein metabolically similar microorganisms are organisms that exhibit similar fingerprint spectra that change similarly in response to changes in the environment--.
- 5. In the claim 81, line 10, after "the first microorganism;", insert wherein metabolically similar microorganisms are organisms that exhibit similar fingerprint spectra that change similarly in response to changes in the environment--
- 6. In the claim 83, line 5, after "the first microorganism;", insert wherein metabolically similar microorganisms are organisms that exhibit similar fingerprint spectra that change similarly in response to changes in the environment--.

- 7. The following is an examiner's statement of reasons for allowance:
- 8. The instant claims are allowable because 20, 21, 23-32, 67-71, 81, and 89-94 recite the limitation of "deriving a relationship between the fingerprint spectrum of the second microorganism cultured under the first set of environmental factors and the fingerprint spectrum of the second microorganism cultured under the second set of environmental factors; and, applying the relationship derived for the second microorganism to transform the fingerprint spectrum of the first microorganism cultured under the first set of environmental factors to an expected fingerprint spectrum for the first microorganism under the second set of environmental factors that is compensated for drift due to the differences between the first and second sets of environmental factors that affect the metabolic state of the first microorganism" which is free of any prior art.
- 9. Further, claim 83 recites "deriving a relationship between the pyrolysis mass spectrum of the second microorganism cultured under the first set of environmental factors and the pyrolysis mass spectrum of the second microorganism cultured under the second set of environmental factors, and, applying the relationship derived for the second microorganism to transform the pyrolysis mass spectrum of the first microorganism cultured under the first set of environmental factors to an expected pyrolysis mass spectrum of the first microorganism cultured under the second set of environmental factors that is compensated for drift due to the differences between the first and second sets of environmental factors that affect the metabolic state of the first microorganism" which is free of any prior art.

- 10. It is noted that claims 20, 21, 23-32, 67-71, 81, 83, and 89-94, have been renumbered as 1-25, respectively.
- 11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

- 12. Claims 20, 21, 23-32, 67-71, 81, 83, and 89-94, renumbered as 1-25, respectively, have been allowed.
- 13. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to (571) 272-0547. The USPTO's official fax number is (571) 273-8300.
- 14. Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete

service center supporting all patent business on the Internet. The USPTO's PAIR system

provides Internet-based access to patent application status and history information. It also

enables applicants to view the scanned images of their own application file folder(s) as well as

general patent information available to the public.

15. For all other customer support, please call the USPTO Call Center (UCC) at 800-786-

9199.

16. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to C. Dune Ly, whose telephone number is (571) 272-0716. The

examiner can normally be reached on Monday-Friday from 8 A.M. to 4 P.M.

17. If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Ardin Marschel, Ph.D., can be reached on (571) 272-0718.
